

set. The obvious impact of the Lamb proposal is to take money from Omaha, take money from Lincoln, take money from Grand Island, take money from North Platte, take money from Papillion, take money from Scottsbluff and put it elsewhere. It is that simple. Now if you are charitable, if you are charitable and you feel sorry for Senator Lamb and you would like to send some of the money the other way, then you ought to do that, and when you do that, Senator Lamb had better make sure he has 33 votes or else we won't have any. There are some long range solutions to this particular problem. They far more involve the 45-10, far more involve the 45-10.

PRESIDENT: You have one minute.

SENATOR F. LEWIS: Now if Senator Lamb wants to take the bill from the committee and you people want to meet as a committee of a whole and come up with the solution to the state aid, be old Frank's guest.

PRESIDENT: Senator Kennedy, no. Senator Koch.

SENATOR KOCH: Mr. President, I move the previous question.

PRESIDENT: Do I see five seconds? The question then is, shall debate now cease? Record your vote. Have you voted? Have you all voted? Record.

CLERK: 12 ayes, 15 nays to cease debate, Mr. President.

PRESIDENT: Motion fails. Senator Dworak. Senator Kahle.

SENATOR KAHLE: Mr. President, members of the body, I rise to support Senator Lamb in his effort to raise this bill. I was on the other side of the issue with Senator Lamb last year when we were discussing LB 33. The reason I am supporting it is because of the schools in my legislative district. I believe there is one, only one, that is going to get anywhere near what they did last year. I might also say that none, to my knowledge, at least, no petitions were circulated in my district. If there were, there were very few signers. So these people are not responsible for the fiasco we seem to have with LB 33. At one time, I had the same idea that many of you have, let's not fool with it this year. Let's let the vote determine what is going to happen next Fall. And then some of the school people began to tell me what it was doing to them. The schools in my district are going to lose several hundred thousand dollars. So I think that it is my duty to try to get this money back to them this year. The money was appropriated for that purpose. It should be distributed in the old formula as long the old...we have not passed LB 33. So, therefore, I urge you to support Senator Lamb. I think it is the only fair thing to do this year, to try to get that money back to the old formula so that these school districts can get at least what they planned on before we ever even thought about LB 33. Thank you.

PRESIDENT: Senator Murphy.

SENATOR MURPHY: I would support Senator Lamb's motion mostly because it goes back to what this Legislature did last year. If you will recall, on May the 23rd on page 80 of LB 532, this Legislature had a bill on Final Reading
